

SLC Membership Application

In the short time since the inception of the Save Louisiana Coalition, we have educated countless people on the devastating effects that large-scale diversions will have on our communities and the entire state through community meetings, letters, and emails, we have gotten thousands of signatures on online and written petitions which sends emails and faxes to all of our elected officials every day, and have made real progress in showing our state officials that we are the biggest proponents for coastal restoration that they have, but that their plan needs to be adjusted so it doesn't kill the very thing it is trying to save. With donations like yours we will continue these efforts and grow them on a much larger scale. Bringing this all-important issue to the huge number of people who are either still unaware or just don't believe that this will happen. If we don't stand together, these large-scale diversions WILL happen! Together we can stop them and restore the coast that we all love!
